ABSTRACT

This report examines the profile of transfer students admitted to the University of Victoria (UVic) from British Columbia (BC) colleges from 1993/94 to 1997/98. In addition to BC college transfers and high school entrants, students admitted to UVic may be in the following categories: degree holder, BC university transfer, out-of-province secondary, out-of-province university, special access (mature, disabled), out-of-province college, or other. Section A, which includes tables 1-9, provides a profile of all 6,753 BC college transfers admitted to UVic by: year of admission, college, total transfer credit units, session type and full-time/part-time status, faculty, degree expected, program area, age interval, gender, and admission average. Section B examines the UVic performance of BC college entrants and is composed of tables 10-13. Tables 10 and 11 provide a profile of all BC college transfer students who first registered and commenced studies at UVic in any session between summer 1993 and winter 1997/98. Tables 12 and 13 focus on those who entered between summer 1993 and winter 1994/95 and hence have had sufficient time to earn a credential. Section C, composed of tables 14-17, focuses on the 1,937 BC college transfer students admitted between 1993-1998 who have graduated. Includes an appendix of definitions and technical notes is included. (VWC)

INTRODUCTION

The *Profile of B.C. College Transfer Students Admitted to the University of Victoria 1993/94 to 1997/98* examines the population of college transfer students who entered the university during the last five years. It is modelled on a similar report produced by the Office of Analytical Studies at Simon Fraser University, with some tables modified to reflect the different academic structure at UVic. In contrast to SFU, which has three equal semesters, the UVic academic year is divided into a four-month summer session and an eight-month winter session. During the last five years, 89% of B.C. college transfers and 99% of B.C. high school entrants began their work at UVic during a winter session.

In addition to B.C. college transfers and B.C. high school entrants, students may be admitted to UVic in a number of other categories as tabulated below.

Students by Admission Category

Category	1993/94	%	1994/95	%	1995/96	%	1996/97	%	1997/98	%	Total	%
BC High School	1,001	26.9	1,512	34.5	2,088	38.0	1,914	37.4	1,685	34.5	8,200	34.7
BC College Transfer	1,136	30.6	1,329	30.3	1,512	27.5	1,384	27.0	1,392	28.5	6,753	28.6
Degree Holder	396	10.7	436	9.9	403	7.3	455	8.9	364	7.5	2,054	8.7
BC University Transfer	290	7.8	301	6.9	329	6.0	255	5.0	283	5.8	1,458	6.2
Out-of-Province Secondary	147	4.0	144	3.3	330	6.0	286	5.6	339	6.9	1,246	5.3
Out-of-Province University	114	3.1	153	3.5	203	3.7	223	4.4	205	4.2	898	3.8
Special Access (Mature, Disabled)	345	9.3	213	4.9	147	2.7	75	1.5	65	1.3	845	3.6
Out-of-Province College	86	2.3	122	2.8	112	2.0	161	3.1	171	3.5	652	2.8
Other	201	5.4	178	4.1	368	6.7	368	7.2	377	7.7	1,492	6.3
Total	3,716	100	4,388	100	5,492	100	5,121	100	4,881	100	23,598	100

between summer 1993 and winter 1997/98. In contrast to the SFU report, this group includes the 438 students (6.5%) who withdrew sometime during their first session. For someone who began in September in a winter session, this withdrawal could have been as late as February, after the completion of fall courses.

Table 1 tabulates B.C. college transfers by college and year of admission. Counts of students admitted from B.C. high schools are included for comparison. Most of these will have entered UVic directly after graduation, but some may have entered later. Due to stringent admission requirements for high school graduates in 1993/94, the intake of college transfers was actually higher. **Figure 1** displays the colleges by the number of student transfers. Not surprisingly, Camosun College leads all others by a wide margin as a source. Malaspina University-College is a distant second, and the Okanagan University College is third.

Table 2 tabulates B.C. college transfers by college and transfer credits. Nearly a third of all transfer students entered with at least 27.5 units. Note that not all transfer units may be applicable to all degrees.

BEST COPY AVAILABLE

Table 3 breaks down entrants by session type. For winter session entrants, the full-time/part-time status is also displayed. Full-time requires enrolment in at least twelve units of course work for students not enrolled in a co-op program. All co-op students are defined as full-time. As noted above, about 11% of B.C. college transfer students began in the summer, compared to only 1% of B.C. high school entrants. About three-quarters of B.C. high school winter session entrants entered UVic as full-time, while about half of B.C. college transfer students entered as full-time.

Though **Table 4**, which tabulates the faculty entered, has been included to correspond to the SFU report, it is not particularly meaningful. The vast majority of B.C. high school entrants started in UVic's general Faculty of Arts and Science. Usually, first year students cannot enter the Faculties of Business, Education, Human and Social Development, or Law. Because most college transfer students enter UVic at a second year level or higher, they can directly enter these faculties. Thus this table is more a reflection of year level than degree intention.

Table 5 displays B.C. college transfers by degree expected. The majority enrolled in one of the many BA degree programs. Since UVic students are not required to declare a degree program until third year, many appeared as undeclared.

Most B.C. college transfer students do not specify an area of study during their first session. The program areas displayed in **Table 6** are hence combinations of faculty and degree expected data.

The age distribution of college transfer students is displayed in **Table 7**. On average, college entrants are five years older (23.4) than high school entrants (18.1). Entrants from BCIT are older (28.7) than entrants from other colleges.

Table 8 shows B.C. college transfers by gender. In both B.C. college transfers and B.C. high school entrants, females predominate, representing 58% of all entrants. Of the 18 colleges, only Coquitlam provided more males than females.

Table 9 tabulates B.C. college transfers by admission average, the overall mean being 73.1 and the overall median 73.0. The minimum admission average requirement for B.C. college transfers was 69 in 1993/94, and 60 in 1994/95, 1995/96, 1996/97 and 1997/98.

Section B examines the UVic performance of B.C. college entrants, and is composed of tables 10-13. Like section A, tables 10 and 11 provide a profile of all 6,753 B.C. college transfer students who first registered and commenced studies at UVic in any session between summer 1993 and winter 1997/98. Tables 12 and 13 focus on those who entered between summer 1993 and winter 1994/95, and hence have had sufficient time to earn a credential.

In addition to the admission average, **Table 10** gives the first session grade point average, graduating grade point average, and cumulative grade point average of B.C. college entrants. A grade point is a numerical value given to a letter grade, with 9 equivalent to A^+, 8 to A, 7 to A^-, 6 to B^+, 5 to B, 4 to B^-, 3 to C^+, 2 to C, 1 to D, and 0 to failure. The graduating GPA of a student in a bachelor's degree program is based on grades in 300 and 400 level (and in Education, 700 level) courses acceptable within the degree program being taken. The cumulative GPA is based on all courses taken while at the university. Students from BCIT, the University College of the Fraser Valley, and the College of New Caledonia attained the highest graduating and cumulative GPAs.

Table 11 spans twelve pages, and compares the performance of B.C. college and B.C. high school entrants for a selection of high-enrollment courses. For college categories with only one or two students in a given course, the mean admission average and average course grade are not given. **Figure 2** summarizes the average grades of B.C. college transfers and B.C. high school entrants for these thirty-five courses. In all but one of the courses, the high school entrants scored higher than the college entrants. It should be noted, however, that many of the college students were attending university for the first time, while most, if not all, of the high school students had attended UVic in a previous session.

Table 12 tabulates the graduation rates of B.C. college transfers, by college and total transfer credit units at the time of admission, for those who entered in 1993/94 or 1994/95. Not surprisingly, these tend to be higher for those who entered with more transfer credits, and hence were further along in their programs. Note again that, in contrast to the SFU report, those who withdrew during their first session are included. The overall graduation rate of B.C. college transfer students is 58.8%, but some who entered in 1992/93 or 1993/94 are still at UVic and will graduate in the future.

As shown in **Table 13**, the 1,937 graduating B.C. college transfer students who entered between 1993/94 and 1997/98 had a mean cumulative GPA of 5.60. As noted above, the cumulative GPA is based on all courses taken while at UVic. **Figure 3** compares the cumulative GPA of B.C. college transfers with B.C. high school entrants. Since high school entrants usually begin UVic at the first year level, rather than at the second or third year level like college transfers, only 531 have graduated. They outperformed the students from all of the colleges except the University College of the Fraser Valley and BCIT, with a mean cumulative GPA of 6.05.

Section C, composed of tables 14-17, focuses on the 1,937 B.C. college transfer students admitted during the last five years who have graduated.

Table 14 summarizes the grade performance of this group. As in table 10, which examined the performance of all college entrants, students from the University College of the Fraser Valley, BCIT, and the College of New Caledonia, had the highest grades.

Table 15 is the distribution of B.C. college transfers by graduation area. Most common are degrees in Psychology and English.

Table 16 shows the distribution by degree awarded. The most common degree is a BA, with a BSc a distant second.

Table 17 shows the average number of years to graduation by credential awarded, the overall average being 2.8. This period of time is measured from when the student first entered UVic, whether enrolment was continuous from the time of entry to the time of graduation or not.

Section D, comprised of tables 18-20, profiles the 2,193 students who were not admitted to UVic on the basis of work at a B.C. college, but who attended a B.C. college sometime in the past. This group includes those admitted on the basis of a B.C. high school, mature students, students from another university, etc. In cases where more than one college was attended, the most recent is chosen.

Table 18 tabulates the students with college experience by year of admission. As in table 1, the three top sources of students with college experience admitted to UVic are Camosun College, Okanagan University College, and Malaspina University-College.

Table 19, which gives the age distribution of students with college experience, shows that, with a mean age of 31.2, they are considerably older than college transfer students, whose mean age from table 7 is 23.4.

Table 20 tabulates the gender distribution of students with college experience. Almost three-quarters are female.

Appendix

Definitions And Technical Notes

Session: The academic year at The University of Victoria is divided into two sessions: a four-month summer session (May to August), and an eight-month winter session (September to April). This contrasts with the semester or trimester system containing two or three four-month periods of study.

BC College Transfers: These are students admitted to the University of Victoria, primarily on the basis of their performance at a BC college or colleges, and who register and begin work in at least one UVic session. Those who withdraw, either in the first or a subsequent session, are included. For the purposes of this report, students who have earned transfer credits from more than one BC college are grouped with the college where the majority of these credits were earned. With few exceptions, BC college transfer students have earned a minimum of 12 units of transferable academic credit, at least half of which has been acquired at one or more BC colleges. In most instances, BC college transfers have earned 12 or more units of transfer at the one college they have attended.

BC High/Secondary School Students: These are students admitted to the University of Victoria, on the basis of their performance at a BC high school, who register and begin work in at least one UVic session. Those who withdraw, either in the first or a subsequent session, are included. Both students who enter UVic immediately after secondary school, and those who enter after some delay, are included.

Grading Systems: The University of Victoria uses a grade point system to evaluate course performance. A grade point is a numerical value given to a letter grade, with 9 equivalent to A^+, 8 to A, 7 to A^-, 6 to B^+, 5 to B, 4 to B^-, 3 to C^+, 2 to C, 1 to D, and 0 to failure. The weighted average of such grades is called a grade point average. This compares with the four point (0-4) and percentage (0-100) systems used at other institutions. However, BC college transfers and BC high school students are admitted to UVic based on a percentage average. These admission averages are derived from a variety of incoming grading systems.

Comparing Grading Systems: Comparisons of, and conversions between the grading systems described above are difficult. For example, in Table 10 of this report, the conversion of admission average to a 9-point GPA scale would facilitate an analysis of whether students transferring to university experience a decline in GPA from admission GPA to first session GPA. Unfortunately, there is no direct mathematical linkage between a grade point and a percentage value (e.g. 90% does not automatically translate into a 9 GP). A 9 GP represents "A+" work, a level generally associated with percentage grades anywhere from 85% to 100%. While a midpoint (92.5%) could be construed to be equivalent to a GP of 9.0, the conversion requires sufficient estimation and interpolation to cast doubt on comparisons between "real" GPAs and "constructed" GPAs. (The potential error is even greater when a single admission average is converted to a single GPA, rather than when a number of individual course grades are converted to corresponding GPs and a GPA calculated.) Given that admission GPA and first session GPA might differ only slightly, the error introduced by estimating GPAs from admission averages renders any comparisons suspect.

Grade Point Average (GPA): The university recognizes three types of grade point averages for its students. The sessional GPA is based on all grades earned during a given winter or summer session. The graduating GPA of a student in a bachelor's degree program is based on grades in 300 and 400 level (and in Education 700 level) courses acceptable within the degree program being taken. The cumulative GPA is based on all courses taken while at the university. While other GPA measures and concepts might have

52
BEST COPY AVAILABLE

resulted in easier comparisons with other institutions, these are the measures accepted at UVic (and calculated/recorded on its student records system).

The Effect of Differing Academic Regulations: Universities adopt numerous academic policies/regulations that differ from institution to institution, and often use different terminology to refer to essentially similar concepts. Inter-institutional comparisons are therefore sometimes difficult. Caution should be exercised when comparing this report's findings to those in the corresponding Simon Fraser University report and forthcoming University of British Columbia report.

Graduation Rates: Graduation rates in this report are based on those students admitted in 1993/94 or 1994/95 who had graduated by May 1998. Because BC College Transfers have begun their work at UVic at a higher year level than BC High School Students, a higher percentage of the former will have graduated. The high school students who have graduated will include many who are highly-motivated and have proceeded through UVic at a full-time rate. As such, cohort comparisons of graduation rates should be made with caution.

Full-Time/Part-Time Status: All non-coop undergraduate students registered in at least twelve units of course work during a given winter session and all coop undergraduate students are classified as full-time. All non-coop undergraduate students registered in less than twelve units of course work during a given winter session are classified as part-time. Full-time and part-time status is not defined for summer sessions.
